

Message to participants to the 10th MESEA conference 2016

Dear members,

It is time to consider submitting your paper for publication in one of the volumes that will come out of the 10th biennial MESEA conference that took place in Warsaw, Poland.

MESEA volumes have a record of being published by mainstream publishing houses in Europe and the USA. A brief look at the [Publications](#) page of our site will convince you.

Also, there is usually more than one volume that comes out of a single conference. Barcelona, for example, gave us no less than three volumes.

Please prepare your manuscript according to the Chicago style manual.

Make sure that your manuscript is no longer than 7000 words including notes and bibliography.

The platform is open now ([MESEA 2016 Publication: Submissions](#)) and in order to access it you have to be a registered MESEA member.

Final deadline for submission: January 31, 2017.
